EDUCATION

UNIVERSITY OF MICHIGAN

Literature, Science, and the Arts

B.S. in Computer Science, Minor in French / 2014 - 2018

GPA: 3.64

Relevant Coursework: App Development for Entrepreneurs, Artificial Intelligence, Digital Product Design, User Interfaces, Creative Writing in French, Graphic Design

EXPERIENCE

TEACHING ASSISTANT PROGRAM IN FRANCE (TAPIF)

Meudon, France

Incoming English Teaching Assistant / October 2018 - April 2019

Will empower global community connections by planning and leading creative English lessons in three primary schools (6-11 year-olds). Will collaborate with colleagues daily using oral and written French.

DIVERSITY, EQUITY, AND INCLUSION PROGRAM

U-M School of Public Health

Program Assistant / June 2018 - present

Devised a plan of action to adapt to our constantly evolving campus and national environment by developing an Active Listening Response Team program from conception to execution. Wrote the facilitation guide for a 3-day training session, supplementary handouts, accompanying presentations, and a thorough spec for its implementation in the Fall. Identified critical areas of improvement and demonstrated strong, inclusive writing ability by effectively explaining DE&I through a creative lens.

PRECARITY LAB

U-M Institute for the Humanities

Website Designer / July 2018 - present

Direct the development of a dynamic, responsive website to publicize the work of Precarity Lab, from content ideation and UX design to technical implementation.

TRACKIT

Web Application

Project Manager / Fall 2017

Led a team of 3 students in guiding a project from ideation to launch. Defined product strategy throughout the execution cycle, which included storyboarding, building an MVP, conducting usability studies, iterating, and presenting our final product.

ROBLOX CORPORATION

San Mateo, CA

Web Engineer Intern / Summer 2017

Worked on a cross-functional team to implement a redesigned splash page for Roblox Studio, increasing the application's download rate by 85% in A/B tests on the second iteration. Took initiative by leading the implementation of Google Analytics on the page to continuously track user metrics, demonstrating an affinity for data-driven decisions.

LEADERSHIP

ETA KAPPA NU (HKN) - βε

U-M Chapter of the National EECS Honor Society

Vice President / Fall 2017

Managed over 50 new members and set the vision for the induction process by organizing events and reforming the mentoring system — all in an effort to ensure that each member felt a strong sense of belonging. Was nominated for VP while studying abroad and earned the position despite running remotely.

Projects Officer / Fall 2016

Spearheaded an initiative to advance the community as a more inclusive space by working with the U-M Dept. of Intergroup Relations to hold workshops on identity and bias. Organized community service opportunities for over 80 active members.

TECHNICAL SKILLS

DESIGN SOFTWARE PROGRAMMING

Sketch, InVision, Adobe Illustrator, Adobe Photoshop, Adobe InDesign
Python, C++, JavaScript/jQuery/AngularJS
